

TAB. 2 Symbols of Linear A, carved on HT nodules (mainly Wa) with the main "variants".

Some of the so-called variants could represent, alternatively, a real different symbol from the standard AB sign.

In this table are not included the sequences of more symbols attested on roundels (Wc) and *noduli* (We), which could open a wider discussion on Linear A script and the relation between these two types of *cretulae* and the inscribed tablets.
